It is the third installment in the Crysis series and the sequel to Crysis 2, featuring gameplay, setting, and design similar to that of Crysis 2, and was released in May 2013. The Crysis series is a science fiction series. The PC version of Crysis 3 and its expansion Crysis 3: Aftermath were released on May 19, 2013.Q: Chrome Developer Tools Says CSS Property Is "auto" I've got some HTML/CSS that generates a style for all div elements with "pointer-events: none;" set to the current element. I'm seeing that the styles aren't being applied, even though the page is rendering just fine, but Chrome Developer Tools keeps telling me that the CSS property is set to "auto" and "pointer-events: none" is not present. Is there any way to fix this? I've tried deleting the element, reloading, and re-adding it, but that 82157476af](#)
